EDUCATION

B.E.

Texas Institute of Technology
May 2016 **GPA 3.9**

High School Diploma

Central High School
Apr 2012

SKILLS

- Node.js
- Python
- PostgreSQL
- MongoDB
- Docker
- Kubernetes
- CI/CD
- Redis
- GraphQL
- AWS

SUMMARY

Dedicated Backend Developer with 7+ years of experience building secure, high-performance APIs and microservices using Node.js, Python, and PostgreSQL. Passionate about scalability, automation, and clean architecture.

EXPERIENCE

Senior Backend Engineer

Mar 2021 – Present

DataNest Solutions

- Developed distributed microservices using Node.js and Docker. Implemented API rate limiting, authentication, and background job processing using Redis and Bull.

Backend Developer

Jul 2016 – Feb 2021

CloudCore Systems

- Maintained and scaled backend systems built on Python and PostgreSQL. Automated deployments with GitLab CI/CD and improved API response time by 35%.

PROJECTS

Invoice - Invoice Management System

Web Application (FinTech)

Invoice is a secure web platform that allows freelancers and small businesses to generate, track, and automate professional invoices. Built with Node.js, MongoDB, and Stripe integration.

API Monitor Dashboard

DevOps Tool

A real-time API monitoring dashboard for microservices. Tracks latency, uptime, and error rates using Prometheus and Grafana.
